

## COUGAR POSEIDON-GT 360 Prozessor Flüssigkeitskühlung 12 cm Schwarz 1 Stück(e)

**Marke :** COUGAR

**Artikel-Code:** CGR-POSEIDON GT 360

**Produktname :** POSEIDON-GT 360

COUGAR POSEIDON-GT 360. Typ: Flüssigkeitskühlung, Lüfterdurchmesser: 12 cm, Maximum Luftdruck: 4,24 mmH2O. Produktfarbe: Schwarz

| Leistungen                         |                                                                                                                                                                                                  | Design                           |                   |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|-------------------|
| Empfohlene Platzierung *           | Prozessor                                                                                                                                                                                        | Anzahl Lüfter                    | 3 Lüfter          |
| Typ *                              | Flüssigkeitskühlung                                                                                                                                                                              | Energie                          |                   |
| Lüfterdurchmesser                  | 12 cm                                                                                                                                                                                            | Stromverbrauch (Standardbetrieb) | 4,2 W             |
| Unterstützte Prozessorsteckplätze  | LGA 1200 (Socket H5), LGA 1366 (Socket B), LGA 1700, LGA 2011 (Socket R), LGA 2066, Socket AM2, Socket AM2+, Socket AM3, Socket AM3+, Sockel AM4, Sockel AM5, Socket FM1, Socket FM2, Socket TR4 | Nennspannung                     | 12 V              |
|                                    |                                                                                                                                                                                                  | Stromverbrauch Lüfter            | 2,76 W            |
|                                    |                                                                                                                                                                                                  | Nennstrom                        | 0,35 A            |
|                                    |                                                                                                                                                                                                  | Gewicht und Abmessungen          |                   |
| Maximaler Luftstrom                | 82,48 cfm                                                                                                                                                                                        | Heizungs-Breite                  | 27,2 cm           |
| Maximum Luftdruck                  | 4,24 mmH2O                                                                                                                                                                                       | Heizungs-Tiefe                   | 12,1 cm           |
| Geräuschpegel Lüfter (max.)        | 34,5 dB                                                                                                                                                                                          | Heizungs-Höhe                    | 2,7 cm            |
| Pumpenanschluss                    | 3-polig                                                                                                                                                                                          | Schlauch-/Rohrlänge              | 40 cm             |
| Menge pro Packung                  | 1 Stück(e)                                                                                                                                                                                       | Pumpenbreite                     | 7,15 cm           |
| Motorschnelligkeit der Pumpe (min) | 200 RPM                                                                                                                                                                                          | Pumpentiefe                      | 4,98 cm           |
| Motorschnelligkeit der Pumpe (max) | 3200 RPM                                                                                                                                                                                         | Abmessungen Gebläse (B x T x H)  | 120 x 120 x 25 mm |
| Ventilatoren Geschwindigkeit (min) | 600 RPM                                                                                                                                                                                          | Verpackungsbreite                | 465 mm            |
| Ventilatoren Geschwindigkeit (max) | 2000 RPM                                                                                                                                                                                         | Verpackungstiefe                 | 195,5 mm          |
| Design                             |                                                                                                                                                                                                  | Verpackungshöhe                  | 143 mm            |
| Produktfarbe *                     | Schwarz                                                                                                                                                                                          | Paketgewicht                     | 2,54 kg           |
| Material                           | Cooper                                                                                                                                                                                           | Lieferumfang                     |                   |
| Heizkörpermaterial                 | Aluminium                                                                                                                                                                                        | Verpackungsart                   | Box               |
