INSTALLATION SAFETY INSTRUCTIONS

CAUTION: This mount is intended for use only with the maximum weights indicated. Use with soundbars heavier than the maximum indicated may result in instability causing possible injury.

Do not attempt to install this product until all instructions and warnings have been read and properly understood. Please keep these instructions for future reference. B-Tech International Limited, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire.

General

B-Tech International Ltd recommends that a professional AV installer or other suitably qualified person install this product. Great care must always be taken during installation as most AV equipment is of a fragile nature, possibly heavy and easily damaged if dropped. If you do not fully understand the instructions or are not sure how to install this product safely, then please consult a professional for advice and/or install this product for you.

Failure to mount this product correctly may cause serious injury or death both during installation and at any time thereafter. Do not mount any AV equipment that exceeds the specific weight limit of the product you are installing. This weight limit will be clearly stated on each product and its packaging and will vary from product to product.

Product location

Please pay careful attention to where this product is located. Some areas are not suitable for installation.

If located in a public or frequently populated area ensure that the product is out of the immediate reach of people. If any AV equipment is to be suspended over the likely path or location of people then great care should be taken to secure all parts of the installation from falling.

Fixing hardware

In some cases more AV equipment fixing hardware will be supplied to accommodate different models of equipment and set up configurations. The installer must be satisfied that any supplied fixing hardware is suitable for each specific installation.

If any fixing screws or included hardware are deemed not sufficient for a safe installation then please consult a professional or your local hardware store.

Hazard limitation

When routing cables take advantage of any built in cable management features that the product might provide and ensure that all cables are tidy and secure. Check to see that any moving aspect of the product can do so unhindered by any cabling. Some products have moving parts and the potential to cause injury through the crushing or trapping of fingers or other body parts.

Particular attention to the nature of moving parts is required especially when assembling installing and adjusting during set up. Immediately after installations double-check that the work done is safe and secure. Double-check all necessary fixings are present and are of ample tightness.

It is recommended that periodic inspections of the product and its fixing points are made as frequently as possible to ensure that safety is maintained. If in doubt consult a professional AV installer or other suitably qualified person.

You may also use the mounting hardware provided with your wall bracket to attach your Soundbar Brackets to your mounting solution.

NOTE: Due to the lack of industry standard in mounting patterns on soundbars, the provided hardware may not suit your specific model. Additional soundbar hardware may be required.

Suitable for loads up to
10Kg (22lbs)

CONFIGURATIONS

If mounting the soundbar above the flat screen TV, then use the top two fixing holes on the back of the flat screen TV. Use the bottom fixing holes if mounting the soundbar below the flat screen TV, don't use both the top and bottom fixing holes.

Below are examples of multiple configurations you can use to adapt the bracket to match your Flat Screen and Soundbar requirements. Use the configuration that works best with your equipment. Soundbar can be mounted above or below the screen in the following ways:

CAUTION!:

PLEASE NOTE MOUNTING TO A TV ON ITS STAND IS A TIPPING RISK. THIS COULD CAUSE DAMAGE TO EQUIPMENT AND POSSIBLY LEAD TO PERSONAL INJURY.

INSTALLING SOUNDBAR BRACKETS TO A WALL MOUNTED FLAT SCREEN

Insert the Soundbar Brackets in between the back of your flat screen and your wall mount. You will be using your wall mount panel screws to affix the Soundbar Brackets to your TV. Secure with one bolt in each bracket as demonstrated in the diagram below. Do not screw all the way as final adjustments may be necessary.

Don't tighten screws too much when fixing the soundbar brackets as adjustments will be needed.

Installing the soundbar below the flat screen

Spacers may be required for flat screens with recessed fixings

INSTALLING SOUNDBAR BRACKETS TO A FLAT SCREEN ON ITS STAND

There are three ways to mount your Soundbar to the Soundbar Brackets, depending on the mounting specifications of your Soundbar

- (A)** KEYHOLE FIXINGS
IN SOUNDBAR

(B) THREADED MOUNTING
HOLES IN SOUNDBAR

(C) FIXING TO THE SOUNDBAR
WALL BRACKET

(A) KEYHOLE FIXINGS IN SOUNDBAR

If your soundbar has keyhole mounting holes

Use parts 4 or 5 with parts 9 or 10 and parts 11 or 12 and attach the screws. Hang your Soundbar on the screws making sure the screw heads fit properly into the keyholes. Make desired alignment adjustments and tighten all screws. Do not over tighten.

THREADED MOUNTING HOLES IN SOUNDBAR

Using the correct screws and washers, screw your Soundbar directly into the Soundbar Brackets.
